

# SFAUTHORIZATIONPLUGINVIEW INTRODUCTION

November 17, 2018 • [Code](#)

Since a few months, I have had the chance to work with `SFAuthorizationPluginView` for macOS.

Sadly, documentation is lacking and understanding what this plugin does, how to install and test it and how not to destroy your computer is quite hard. Therefore, I wanted to make a blog post wrapping up all this as a guide for beginners and curious coders who want to experiment coding their own plugin.

## BEFORE WE START :

A few useful links :

- [Official documentation - Apple Developer](#)
